

# Salesforce Developer

Since our formation in 2009 we have grown into an award-winning business. Based in Warrington we support customers nationwide. We describe ourselves as a fast-moving, innovative and people focused organisation. We're good at what we do, but there is always room to improve which is why we're serious about investing in our people.

## **The role:**

Working within our vibrant office you will be leading on all implementation of ongoing and new developments for Salesforce. You will be working closely with division managers to help streamline and develop the system. Working on products and exploring new opportunities under the Salesforce products. You will be supported by the in-house testing and development team to ensure that the system is fully user friendly.

## **The person:**

We are looking for a talented Salesforce Developer to join our business and provide Salesforce solutions to all aspects of the business. Being task focused you will maintain the CRM platform and design and implement projects for all aspects of the business. You will bring fresh ideas to the team and have 4 years experience of development within a commercial environment. Knowledge around Apex, Visualforce and Appbuilder is essential.

## **What can we expect from you?**

- Positivity – Solution focused
- Grow - Develop within your role and grow with our business.
- Inspire - Share your ideas to improve the way we do things
- Co-ordinator – Able to plan and implement.
- Communicator – Demonstrate high quality skills.

## **Key Responsibilities:**

- Propose technical solutions which can be achieved through either salesforce configuration or Salesforce development or a combination of both.
- Be responsible for aligning Salesforce development with the software development lifecycle, including deployment, peer review and quality assurance.

- Work closely with the product owners, development teams to help coordinate Salesforce and related projects from inception through production. Supporting through collaboration, communication and data integrity.
- Fully understand, support and manage Salesforce.com, Sales cloud processes and application and any future adoption from Salesforce cloud.
- Liaise with training to help develop materials for training plans for new users and on-going training sessions.
- Stay up-to-date with the latest Salesforces.com releases, technologies, application and integrations.
- Evaluate Salesforce.com AppExchange products.
- Manage standard and custom objects configurations, such as pages, fields, formulas and ensure consistency across the group.
- Administration of Salesforce Mobile and interfaces to add-on and external tools.
- Work with the data and managers to coordinate and develop reports and dashboards.
- Act as a point of contact with the support team to perform all duties relating to system maintenance.
- Maintain security, including user accounts, passwords and access.

#### **Skills:**

- Technical experience of the use of Apex programming language to develop all customisation of salesforce.com
- Experience of building bespoke Visualforce pages
- Proficiency in HTML and CSS.
- Excellent Written and Verbal communication Skills
- Fluency in Office applications
- Salesforce Certified Platform Developer credential essential

#### **What will you get in return?**

- Salary £25,000 - £35,000 pa
- Pension Scheme
- Company reward scheme including: length of service awards, peer to peer recognition, suggestion scheme and employee of the month & year awards
- Free fruit, tea and coffee
- Refer a friend reward scheme
- Company social events including: summer parties, team nights out & much more
- Make a difference day – 1/2 paid day off work to volunteer at a charity of your choice
